Journalist

### **The Foundation**

I met Mike and Maggie at one of DEOF's annual meetings, invited by my cousin Patricio Narváez, and the memory I have of Mike and Margarita when I met them for the first time is that they were very kind; I had the impression that they were people with a big heart, something that I could verify as I got to know them better.

I have received a lot of help from the foundation. During my university studies, I received economic support to cover important items, allowing me to study without having to worry about these expenses. The advice I have received from Mike and Margarita, as well as from the members of DEOF, has also been very helpful.

I believe that the most memorable moment I have had in my life during the time I have been part of DEOF is when I finally received my university degree since it is one achievement that has required the greatest effort and sacrifice and I would not have achieved it without the unconditional support of the foundation.

DEOF is a second family, of which I am very proud to be a part of and which I am sure will always provide me with help and support to overcome any problem in my life.

### **COVID Disruption**

My family has been fortunate in that none of us have been infected. However, the pandemic has affected us quite a lot, as it has most of the population. Especially my siblings, who could not adapt to the virtual mode of study.
